

1. The recreational vehicle dump station is open Monday-Friday 7AM-3:30PM
2. When entering the Wheaton Sanitary District off Shaffner Road, after crossing the bridge, you will take a right and then a quick left. (There will be signage)
3. Continue forward just past the structure on the left. On the back side of this structure, you will find a manhole with a hinged door.
4. Open this hinged door. This is where you will insert your waste hose from your RV.
5. Hook one end of your hose to your RV and insert the other into the hole in the manhole. You are now ready to open the valve to empty your waste tank(s).
6. After your waste tank is empty, please shut the valve and make sure the hose is completely empty before removing from the manhole.
7. Please close the hinged door on the manhole.
8. **IF YOU HAVE ANY ACCIDENTAL SPILLS, PLEASE CALL 630-740-6604 IMMEDIATELY**
9. You can now circle around either building to exit back to Shaffner Road.

***Rinse Water is Non-Potable and CANNOT BE
USED FOR DRINKING, COOKING OR
WASHING HANDS OR DISHES!***
