July 22, 2022

Dear Township Residents:

Wheaton Sanitary District (WSD) started construction of its Northside Interceptor (NSI) Sewer Replacement Project on March 15, 2021 at the Wastewater Treatment Plant.

Work within Parts E and F of the NSI project, which includes Ellis Avenue and Armbrust Avenue, has been completed up to Hot-Mix Asphalt (HMA) Binder Course. A map of the overall route/work has been included for your reference on the back of this letter.

Significant progress has been made through the first half of 2022, improvements have included:

- Sanitary Sewer installation
- Storm Sewer replacement
- Abandonment of the existing North Side Interceptor
- Pavement rehabilitation
- HMA Binder Course installation
- Parkway Restoration

A recent Labor Strike has stopped the WSD's General Contractor, Benchmark Construction, from completing the HMA Surface Course, as well as some additional work associated with final completion, along Ellis Avenue and Armbrust Avenue.

On Tuesday, June 7th the Local 150 International Union of Operating Engineers went on strike against area aggregate producers Lehigh Hanson, Vulcan Materials, and Lafarge Holcim. The General Contractor has continued working through the duration of the strike with reduced production, but as the strike carries on materials such as aggregate backfill for pipe installation, hot-mix asphalt for paving, and concrete for curb and gutter are no longer readily available.

Parkway Restoration was not impacted by the strike, but since it was completed during the heat of the summer, various outcomes have been observed within the work area. We have discussed the observed grass and weed issues with Benchmark Construction's subcontractor and offer the following maintenance guidance to improve grass growth:

- Grass – Resident should mow, but leave the straw blanket in place
- Weed Prevalence – The Contractor will spray a non-toxic weed inhibitor which works best if the grass is maintained. They will spray the weeds when the daytime temperatures are less than 85 degrees and rain is forecast within 48 hours.

IAWPCO Class A Plant of the Year – 1988 & 2003
NACWA Gold Peak Performance Award – 2004, 2012, 2013, 2014, 2015, 2018, 2019 & 2020
NACWA Silver Peak Performance Award – 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2016, & 2017
Conservation Foundation Clean Water Award 1998, 2000, 2001, 2005, 2007, 2009, 2012, & 2016
USEPA Region 5 Operations and Maintenance Award 1st Place – 2005
USEPA Excellence in Operations & Maintenance Award 2nd Place – 2005

- Watering – We encourage the property owner to water their parkway to support grass growth, which further inhibits weeds.

Please note that the District will not consider the restoration work complete until the grass is established and generally weed free.

The primary contact during construction is the WSD's Resident Engineer, Jim Snell. Jim can be reached at 815.444.3321 or via email at JSnell@baxterwoodman.com.

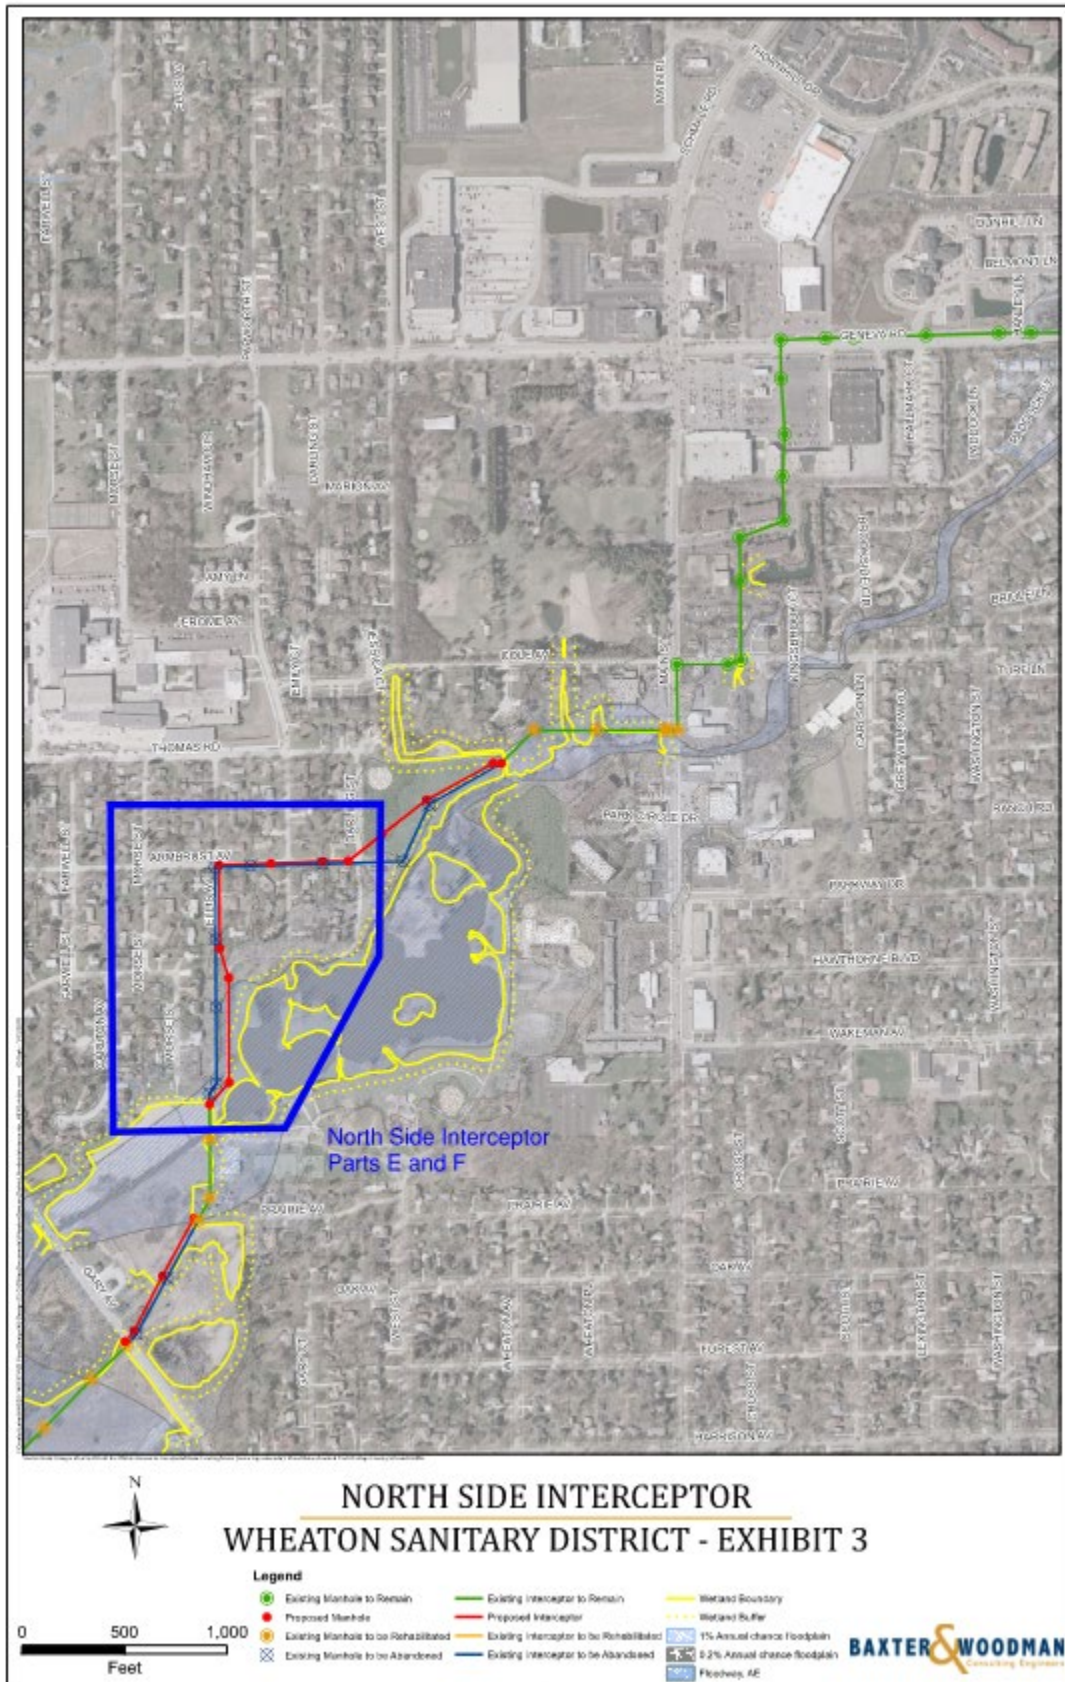

There will be additional information about the Project posted to the District's News Section of its website, (www.wsd.dst.il.us/News). Thank you in advance for your patience during construction.

Very truly yours,

WHEATON SANITARY DISTRICT

Enc.
