July 29, 2022  
(Update to July 18, 2022 Notice)

Dear Wheaton Residents:

This notice is an update on the work within Part C of the NSI project, which includes the area between Winfield Creek and Manchester Road. A map of the overall route/work has been included for your reference on the back of this letter.

**The Local 150 International Union of Operating Engineers strike, which caused disruptions to construction projects throughout the Chicagoland area, was resolved on Tuesday, July 26<sup>th</sup>.** As such, we are actively coordinating with Benchmark Construction to resume typical construction sequencing.

Since our last notice, Benchmark Construction has completed miscellaneous site cleanup, emulsified asphalt dust control, storm sewer improvements, and curb installation on Hazelton Avenue and Childs Street. As we wait for area material suppliers to ramp up the availability of aggregate, concrete, and hot-mix asphalt products, Benchmark will continue to prepare for paving. Over the next two weeks, Benchmark plans to complete combination curb and gutter installation, subgrade preparation, aggregate base course installation, intersection improvements, and then hot-mix asphalt binder course (paving) up to Pierce Avenue. The paving though is contingent on how quickly material supplies can be brought back to pre-strike conditions.

WSD's priority remains to provide safe access through the construction area and maintain the site in an acceptable condition. Thank you for continued patience while Hazelton and Childs are restored.

The primary contact during construction is the WSD's Resident Engineer, Jim Snell. Jim can be reached at 815.444.3321 or via email at [JSnell@baxterwoodman.com](mailto:JSnell@baxterwoodman.com).
